Why do we collect your personal information?

Waterfall may collect personal data from you to complete following operations:

- Job applications/student ambassador application.
- Subscriptions to newsletters and sending those letters.

2. What data is collected?

Waterfall collects and uses your personal data with appropriate notice and consent when it is required, and after having informed you in a proper way. Personal data means any information relating to an identified or identifiable natural person ('Data subject'). An identifiable person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person. This Policy does not cover personal data rendered anonymous. Personal data is rendered anonymous if individual persons are no longer identifiable or are identifiable only with a disproportionately large expense in time, cost, or work. If personal data rendered anonymous becomes no longer anonymous (i.e., individual persons are again identifiable), or if pseudonyms are used and allow identification of individual persons, then this Policy will again apply. It is always up to you whether to pass personal data on us, although if you elect not to do so, we reserve the right not to register you as a user, applicant or not to provide you with any services. The types of personal data we collect from you may include:
